## No going back

Lost my way in a world gone dark  
The fires out and I feel no spark  
A heavy load on my back  
Seen the void and it's all black

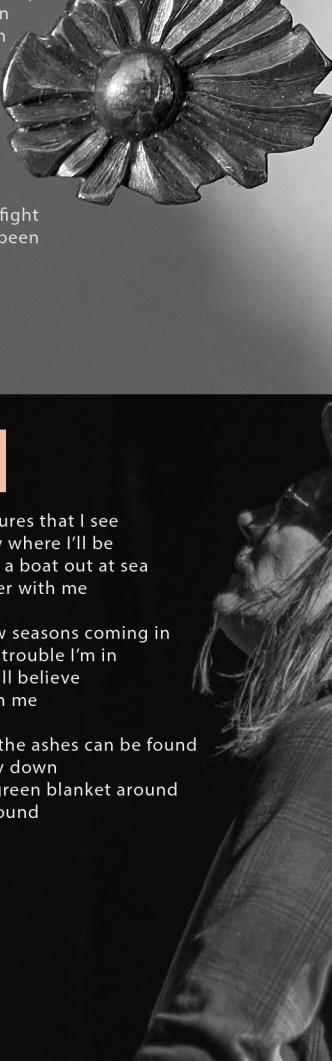

Still I know there is a part  
A little light shining in my heart  
It keeps me going Keeps me moving on  
Through the hard and what seems all wrong

Seen the day slowly turn to night  
The stakes high and there's another fight  
Turn around and see a place you've been  
No going back See no rising... sun

I look around and I feel astray  
The road I've walked seems to fade away  
There's no king and there is no crown  
The sun I've known it has gone down

Leaves fall and the summer's gone  
I don't know Where do we move on?  
A pale face Looking sad inside  
So much beauty Just pass me by

Seen the day slowly turn to night  
The stakes high and there's another fight  
Turn around and see a place you've been  
No going back See no rising... sun

## Hole in the ground

Many memories that linger. Old pictures that I see  
I know where I've been. I don't know where I'll be  
In a cold wind around the corner. Or a boat out at sea  
I know wherever I walk. You're forever with me

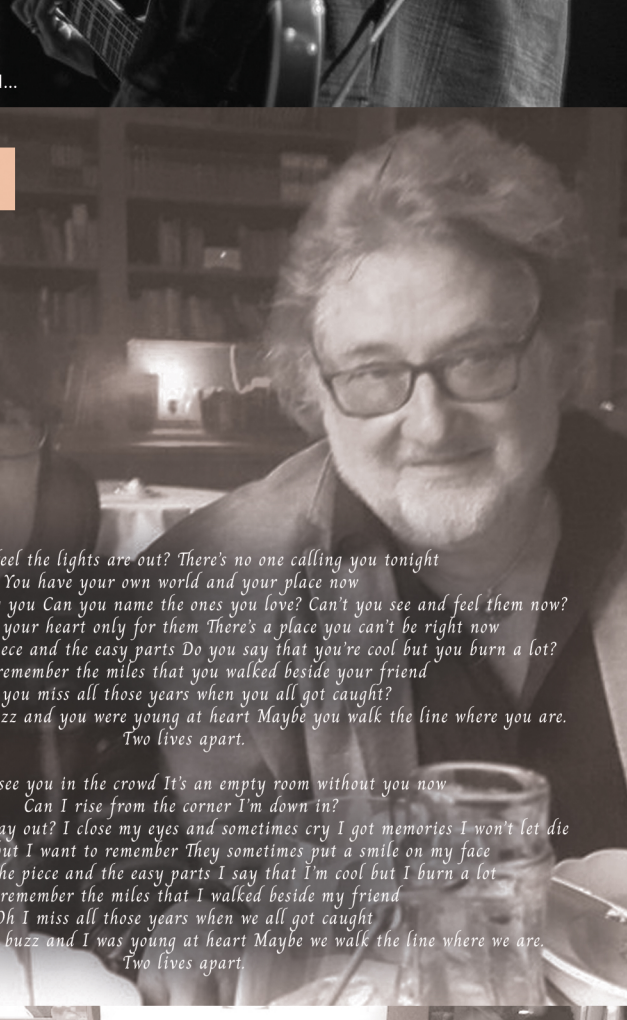

See the rain upon my window. A new seasons coming in  
I look back and look ahead. Past the trouble I'm in  
The sky may seem so empty. But I still believe  
Wherever I walk. You're forever with me

There's a hole in the ground. Where the ashes can be found  
Where my father is buried. Deep way down  
There's a hole in the ground. Was a green blanket around  
A blue bag was lowered. Into the ground

Is there a point we have to pass  
A stone beside the road  
A line we have to cross  
Where everything seem old  
Before morning breaks again  
Before you feel the air  
And in each and every breath  
You hope you might get there

I know the colours of the rainbow  
and the beauty in a dream  
The transience of good times  
I can remember they were real  
I sometimes wake up in the dark  
With everything I feel  
Wherever we'll be  
You're forever with me

There's a hole in the ground...

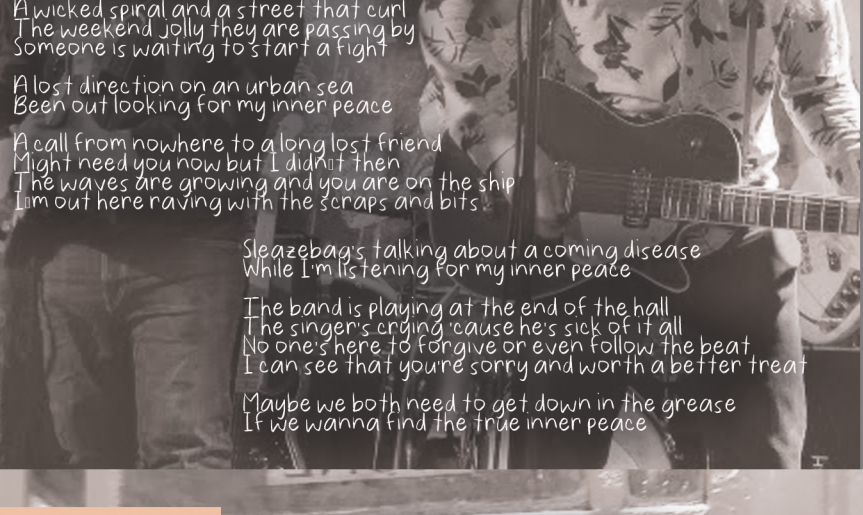

## Two lives apart

Can you feel the lights are out? There's no one calling you tonight  
You have your own world and your place now  
Radios on and there's only you Can you name the ones you love? Can't you see and feel them now?  
There's a place in your heart only for them There's a place you can't be right now  
Do you search for the piece and the easy parts Do you say that you're cool but you burn a lot?  
Do you remember the miles that you walked beside your friend  
Do you miss all those years when you all got caught?  
When your name was a buzz and you were young at heart Maybe you walk the line where you are.  
Two lives apart.

I dream I see you in the crowd It's an empty room without you now  
Can I rise from the corner I'm down in?  
Can I rise and find my way out? I close my eyes and sometimes cry I got memories I won't let die  
They can hurt but I want to remember They sometimes put a smile on my face  
Oh I search for the piece and the easy parts I say that I'm cool but I burn a lot  
I do remember the miles that I walked beside my friend  
Oh I miss all those years when we all got caught  
When your name was a buzz and I was young at heart Maybe we walk the line where we are.  
Two lives apart.

## Hard lines

When I feel my spirits down  
And life seem to turn around  
And I don't see where my hope lies  
And I look into my fathers eyes

I remember you by my side  
Out the window the trees go by  
In your car with a cigarette

On our way to a northern place  
Computers lying there in the back  
And the snow is falling down

How hard is it to write one line  
About happiness and better times  
When sadness not a writers lie  
And you see the ones you've given life

In my dreams I think of you  
Feelin lost inside a solitude  
Maybe I look far away  
Longing for a better day

When I'll think of my style  
And I'll walk with a smile  
In the sun with you...

See I love you my son  
Life has only begun

You were hard working all your life  
Trying harder than most guys  
With a smile upon your face

## Inner peace

A broken window to an outside world  
A wicked spiral and a street that curl  
The weekend jolly they are passing by  
Someone is waiting to start a fight

A lost direction on an urban sea  
Been out looking for my inner peace

A call from nowhere to a long lost friend  
Might have you now but I didn't then  
The waves are growing and you are on the ship  
Lim out here raving with the scraps and bits

Sleazebag's talking about a coming disease  
While I'm listening for my inner peace

The band is playing at the end of the hall  
The singer's crying cause he's sick of it all  
No one's here to forgive or even follow the beat  
I can see that you're sorry and worth a better treat

Maybe we both need to get down in the grease  
If we wanna find the true inner peace

## The magic

When the magic goes away  
And the sky turns grey  
When I no longer  
can put a smile on your face

I'll try once again  
I'll try for you my friend  
You know me well  
I follow to the end

I got my guns  
I got my face  
I got my heart carried away  
There's a place where I can't go anymore

I got my balls  
I got my scars  
I always take it way too far  
There's a loneliness I feel in this world

When the day never comes  
We've been talking about  
When all is done  
And we see no way out

You can leave me by myself  
And still I tell you farewell  
You'll have my love  
But I can't follow I wish you the best

I got my guns  
I got my face  
I got my heart carried away  
There's a place where I can't go anymore

I got my balls  
I got my scars  
I always take it way too far  
There's a loneliness I feel in this world

## I'll find you in heaven

I will find you in heaven  
If I get in  
There we will barbeque  
And drink beer and gin

Now you're in heaven  
Do you still feel my love?  
I'm playing your songs tonight and  
I know you're above

A summertime gone  
Your body in pain  
Some love never dies  
But always remain

I will find you in heaven  
Reading a book  
Maybe playing a record  
When I come and look

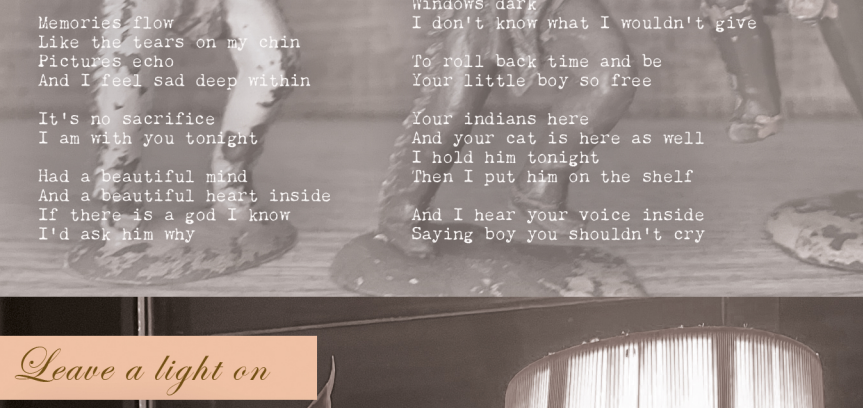

For you friend of my life  
My good comrade  
You gave me my heart  
I love you my dad

A summertime gone  
In the sun and the rain  
Some love never dies  
But leave you in pain

The tears have been crying  
Make rivers that flow  
Into the ocean  
Where my sadness go

I will find you in heaven  
When the time has come  
Some day we will meet again  
We'll find our way home

## Dying to live again

Its a sunday low All the rolling takes its toll  
Can leave you lonely dry and cold Can you feel rather old  
You take a walk outside You see the streets you used to ride  
Back in the time you were a child Back when you were young and wild

Theres a part still left living in your eyes  
Theres a heart still beating from behind the tie  
Feel a hope inside for the free and the wild  
In a car running down by the highway side  
Theres a risk and a chance in a new romance  
Theres a love that we carry and we understand  
Theres a sun going down Theres a moon coming up  
Theres a night shift waiting Theres another shot at fame  
And someone dying to live again

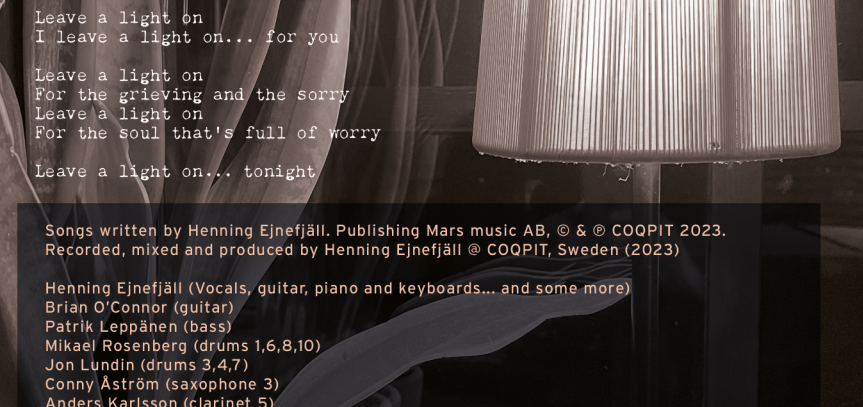

I guess Ill drift a way I sometimes feel that I should pray  
For better times to come this way For better times not to wait  
So Ill make one call To someone Ive known before  
Im not sure if you recall We used to be so young and poor

Its a long time gone Now were on our own  
Sometimes when we meet I just feel alone  
In this place where we've been with our hearts full of sin  
This long kiss goodbye has been wearing me thin  
My old man I do understand I know how you feel in your one man band  
Theres a sun going down Theres a moon coming up  
Theres one last look and a feeling that remain  
Youre dying to live again

On my way back home I walk by the giant stone I see the young ones  
playing ball. I say good luck Youll need it all

Cause theres one strong wind up against your skin You better get  
real hard if youre out to win You got one pure heart but theres  
poison around. That can make you shake and it can move your ground  
And the time can pass with a speed so fast. You dont even know how  
long it will last. Theres a sun going down Theres a chance coming  
up You better be ready and give it all you got. Its a shame...  
Dying to live again

## With you tonight

I'm not strong  
But I'm not weak  
In my head  
I keep what I wanna keep

I smell your old Old spice  
To be with you tonight

Memories flow  
Like the tears on my chin  
Pictures echo  
And I feel sad deep within

It's no sacrifice  
I am with you tonight

Had a beautiful mind  
And a beautiful heart inside  
If there is a god I know  
I'd ask him why

So many bad men still breathe  
And still you had to go  
What's the answer to that  
God I wanna know

The wind does howl  
In the streets where we used to live  
Windows dark  
I don't know what I wouldn't give

To roll back time and be  
Your little boy so free

Your indians here  
And your cat is here as well  
I hold him tonight  
Then I put him on the shelf

And I hear your voice inside  
Saying boy you shouldn't cry

## Leave a light on

Leave a light on  
For the hurt and broken hearted  
Leave a light on  
For the dreams that never started

Leave a light on... for me

Leave a light on  
For your love and ones departed  
Leave a light on  
For the lost, divided parties

Leave a light on  
I leave a light on... for you

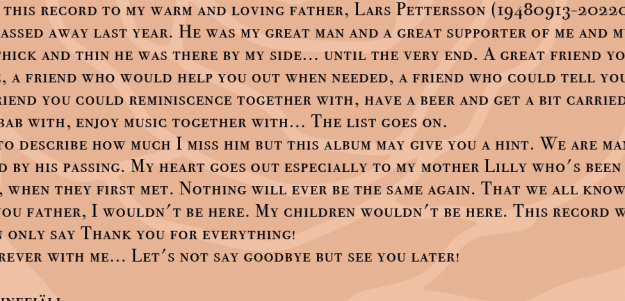

Leave a light on  
For the grieving and the sorry  
Leave a light on  
For the soul that's full of worry

Leave a light on... tonight

I DEDICATE THIS RECORD TO MY WARM AND LOVING FATHER, LARS PETTERSSON (19480913-20220816).  
SADLY HE PASSED AWAY LAST YEAR. HE WAS MY GREAT MAN AND A GREAT SUPPORTER OF ME AND MY MUSIC.  
THROUGH THICK AND THIN HE WAS THERE BY MY SIDE... UNTIL THE VERY END. A GREAT FRIEND YOU COULD ASK  
FOR ADVICE, A FRIEND WHO WOULD HELP YOU OUT WHEN NEEDED, A FRIEND WHO COULD TELL YOU A GOOD  
STORY, A FRIEND YOU COULD REMINISCENCE TOGETHER WITH, HAVE A BEER AND GET A BIT CARRIED AWAY WITH.  
ENJOY A KERAB WITH, ENJOY MUSIC TOGETHER WITH... THE LIST GOES ON.  
IT'S HARD TO DESCRIBE HOW MUCH I MISS HIM BUT THIS ALBUM MAY GIVE YOU A HINT. WE ARE MANY WHO ARE  
DEVASTATED BY HIS PASSING. MY HEART GOES OUT ESPECIALLY TO MY MOTHER LILLY WHO'S BEEN BY HIS SIDE  
SINCE 1967, WHEN THEY FIRST MET. NOTHING WILL EVER BE THE SAME AGAIN. THAT WE ALL KNOW.  
WITHOUT YOU FATHER, I WOULDN'T BE HERE. MY CHILDREN WOULDN'T BE HERE. THIS RECORD WOULDN'T BE  
HERE. I CAN ONLY SAY THANK YOU FOR EVERYTHING!  
YOU'RE FOREVER WITH ME... LET'S NOT SAY GOODBYE BUT SEE YOU LATER!
